

WILL COUNTY RECYCLING DROP-OFF GRANTS 2011

INTRODUCTION

Since 2007, Will County has offered Recycling Drop-Off Grants. The purpose of this grant program is to further improve recycling opportunities for all residents and businesses within Will County. Often, small businesses cannot afford or do not have space for both garbage and recycling service. Additionally, residents of apartment buildings often lack recycling service for similar reasons. Most rural unincorporated residents complain of difficulties contracting for recycling service.

To assist citizens and businesses in all areas of the County, the Resource Recovery and Energy division of Will County Land Use Department is offering recycling drop-off grants to townships, municipalities and park districts. These grants will cover the cost of installing a surveillance camera, fencing or small site improvements up to \$500, that allow the placement of compartmentalized dumpsters for recycling. Most importantly, **the grant will cover the cost of collection service** for up to three years (includes providing the recycling containers). County staff will work with grant recipients to develop educational materials and distribute them to the local business community. (Municipalities that extend into other counties must choose sites within Will County.)

There are two different Recycling Drop-Off programs offered. Recipients may apply for one or both and may likewise be awarded one or both.

The **Traditional Recycling Drop-Off** shall include: Aluminum Cans & Foil, Steel/Tin Cans, Plastic Containers, Glass Jars, Aseptic Packaging (drink pouches and boxes) and all Fiber (newspaper, magazines, telephone books, junk mail, office paper, chipboard and cardboard boxes).

The **Electronic Recycling Drop-Off** shall include at a minimum: Computer CPUs, laptops, monitors, Televisions, Printers, Keyboards, Typewriters, Fax Machines, Telephones, Answering Machines, Radios, VCRs, Cameras, Calculators. ***Please note: Illinois State Law bans CPUs, Monitors, Televisions and Printers from landfills as of January 1, 2012***

Traditional Recycling Drop-Off

Two dumpsters placed on the property, one labeled for mixed paper and one labeled for mixed containers, will be serviced once a week under a County contract. These dumpsters may be placed on gravel, asphalt or concrete. Grass is not recommended due to rain and snow conditions. Soil may be slippery when wet, entrap recycling truck if muddy conditions occur and dissuade participation. There must be enough room for collection trucks to service the containers.

Each site will initially start with weekly collection service from the County's contractor. If participation levels require additional collection service, the County and Grant Recipient will determine if an additional collection container can be accommodated.

*Examples of Two 8-yard dumpsters, appropriately labeled
(Actual dumpster design may vary)*

WILL COUNTY RECYCLING DROP-OFF GRANTS 2011

Electronic Recycling Drop-Off

Depending upon population and site availability, the containers supplied for this program will vary. Please complete the Electronic Information Form to assist the County and its selected contractor in determining the most cost effective collection/storage unit.

For areas **where small amounts are expected or the site determines there is not enough room for the supplied container**, the County asks applicants to designate at least a 8'x 12' enclosed area to place six pallets with Gaylord boxes and large television to be collected on an as needed basis. Sites expected to generate higher participation and larger amounts of electronics shall work with the County and its Contractor to determine the best container to utilize.

A dropped container: A shipping container that sits on the ground with doors that can be locked. It will come with pallets and Gaylord boxes that will need to be set-up from the back to the front by the grant recipient and filled from the back to the front by participants. The grant recipient will call for collection service as needed.

A Pallet & Gaylord Box: The grant recipient will supply a secure enclosed area and the Contractor will supply five to ten pallets and Gaylord Boxes. Participants will fill these with electronics. The grant recipient will call for collection service as needed.

The County is offering up to \$500 for site improvements, including a mandatory surveillance camera, and to assist with the cost of any other necessary site improvements. Site improvements eligible for up to \$500 reimbursement include camera, related surveillance system, fencing, lock, lighting, building modifications, signage, or similar capital cost necessary to accommodate the recycling containers.

Township, Municipal or Park District grant recipients are **required** to:

1. Distribute educational information through water bills, newsletters or other established printed and electronic communication materials seasonally (four times per year);
2. Install signage identifying the site, hours of operation, etc.;
3. Provide lighting for the Drop-Off site;
4. Provide at least one working surveillance camera;
5. Clean the Drop-Off site (recycle blowing litter in appropriate container, dispose of inappropriate items);
6. If fenced, lock & unlock fencing to allow participants access but prevent theft or littering after hours (If the grant recipient wishes to specifically staff the site – the cost of such staffing will be their responsibility.)

Will County staff will evaluate all Recycling Drop-Off Grant applications. Recipients will be chosen based the applicant's location, hours available, experience, commitment to the project as well as the submittal of complete and accurate information in the Grant Application. All applicants should keep the following points in mind:

- The goal is to reduce the amount of material going to landfills & increase recycling throughout the County.
- Please include any experience related to operating a Drop-Off, such as current operation of a Traditional Drop-Off, hosting a one-day collection event, etc.
- Be certain to list the hours and days the Drop-Off will be open to the public. Please note your intention to provide unsupervised 24/7 access or restricted hours such as a fenced, Monday through Friday 7am-3pm arrangement. (Please note that a weekend day or weekday evening hours are strongly encouraged)
- Please include a diagram of the space, indicating any constraints. The site must be able to accommodate dumpsters and/or roll-off box size containers with enough space to allow a truck to service them.

**WILL COUNTY
RECYCLING DROP-OFF GRANTS 2011**

**Traditional Drop-Off & Electronic Drop-Off Recycling Collection
Grant Application**

Application Deadline: Open – applications taken year-round through 2011

Deliver To: Will County
Department of Land Use
Resource Recovery & Energy Division
58 E. Clinton Street
Joliet, IL 60432

Questions: Marta Keane, Recycling Program Specialist

Applicant Name: _____ **FEIN:** _____

EXISTING DROP-OFF SECTION (Complete if you already have a permanent Drop-Off)

Does this municipality or township have a traditional Recycling Drop-Off? Yes No
(Traditional Recycling Drop-Off Items: Aluminum Cans/Foil; Glass Bottles; Steel/Tin Cans; Plastic Containers; Drink Boxes, Corrugated Cardboard; Mixed Paper [Chipboard/Paperboard, Newspaper, Junk Mail, White Paper, Colored Paper, Magazines, Phone Books])

If YES, please provide location: _____ Annual Tons _____

Days and Hours of operation: _____ Annual Number of Participants _____

Please Check Materials Accepted:

- Aluminum Plastic #1& #2 Mixed Paper
- Steel/Tin Plastic #5 Cardboard
- Glass Bottles Plastic #7 Motor Oil

List Additional Items Accepted:

Shall this be the location of the Will County Grant Recycling Drop-Off? Yes No

If yes, will the days & hours of operation remain the same? Yes No

OTHER DROP-OFF EXPERIENCE (Complete if you have ever hosted a temporary or one-day collection event)

Have you ever hosted a one-day recycling collection event? Yes No

If YES, when was it? _____ Approximate Number of Participants _____

What items did you collect? _____

What was the location? _____

PROPOSED GRANT DROP-OFF INFORMATION

Drop-Off Address: _____

(street, city, zip)

Type of Site: Public Works Parking Lot Highway Dept Storage Area Administration Office

Other _____

(please describe)

Is the Site Staffed? No Yes, days and hours: _____

Is the Site Fenced? No Yes

If yes, is there a locking gate? No Yes

Are there street lights or other lighting on the Site? No Yes

Is there a surveillance camera on the site able to view the drop-off area? No Yes

If the answer to any of the last four questions was no, do you have any plans to add staff, fencing, a locking gate or lighting if you are awarded a Recycling Drop-Off? No Yes
