

Used aluminum cans are recycled and returned to a store shelf as a new can in as few as 60 days.

America recycles enough aluminum cans in a year to stretch to the moon and back 8 times.

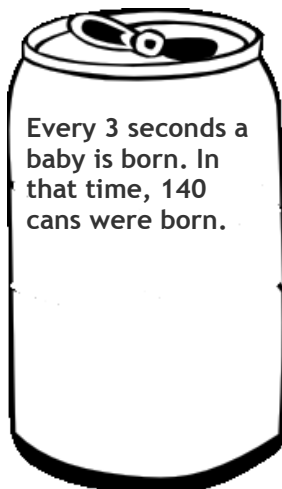

The average employee consumes 2.5 cans of soda each day at work.

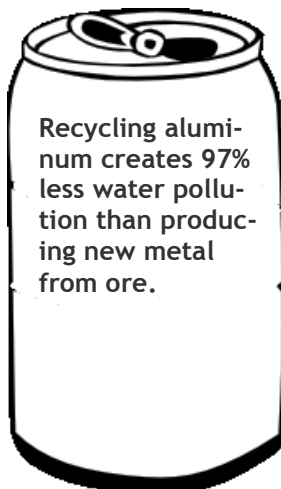

## RECYCLE

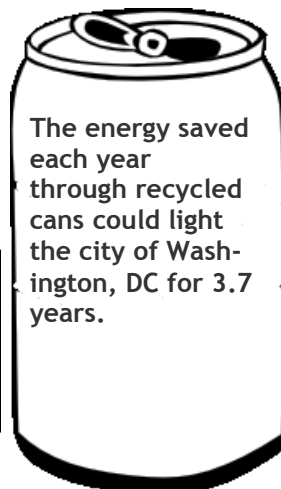

## YOUR CANS

Every 3 seconds a baby is born. In that time, 140 cans were born.

Recycling aluminum creates 97% less water pollution than producing new metal from ore.

The energy saved each year through recycled cans could light the city of Washington, DC for 3.7 years.
