

# VINTAGE TECH LLC

A CERTIFIED RECYCLER

## Who is Vintage Tech

Vintage Tech, LLC is known as one of the most responsible electronics recycling companies in the industry. With the R2, ISO 14001, and WBENC certifications, Vintage Tech is transparent and responsible. Starting in 2005 in the home of Karrie Gibson, Vintage Tech was built to provide a responsible opportunity to the customers in need. Since the beginning, Vintage Tech has grown nearly 40% annually, created over 100 jobs, and provided hundreds of communities, school districts, municipal offices, and businesses with a responsible solution for electronics recycling and hard drive protection.

Our main focus here at Vintage Tech is to provide an affordable solution for all electronic recycling, creating new opportunities, and providing a safe work environment for all employees.

## Data Security

With identity theft on the rise, Vintage Tech is dedicated to protecting our clients and all information on hard drives. Vintage Tech uses a NIST 800-88 compliant data wiping software called Blancco and Destruct Data. VTR has teamed up with the BBB to provide trustworthy service to protect your data on hard drives from identity thieves.

### Benefits of Blancco include:

- Compliant with all privacy acts, NIST 800-88, and DOD
- Secured Location for Hard Drive Storage and Wiping
- 100% Secure Data Sanitation and Destruction
- Full Erasure Reports for your asset tracking (Fee's apply)
- On and offsite hard drive destruction
- GPS tracking on all company vehicles
